About the program

1. Program Main Location:
College of Arts and Sciences – Wadi Addawasir

2. Branches Offering the Program:
N/A

3. Reasons for Establishing the Program:
(Economic, social, cultural, and technological reasons, and national needs and development, etc.)

Computer science fields are very important and essential in all modern life. Hence the importance of establishing a Computer science program, at the College of Arts and Science –Prince Sattam Bin Abdul Aziz University sought to establish a Computer science program to meet the needs of the labor market through three main reasons, which are as follows:

Economic:

1. Implementation of the strategy of the Kingdom in the development of the Saudi economy need to specialize in Computer science aspects
2. The program supports the increase of knowledge in the field of computer science in the Kingdom aligned with the requirements of vision 2030.

National policy developments:

In parallel with the goals of the National Transformation Program 2020 and Vision 2030 to promote sustainable development and provide the youth quality education to compete in the global society.

Social reasons:

1. Spreading higher education and increasing knowledge in society.
2. Providing qualified cadres that form the scientific basis on which development plans in society are based.
3. Reducing unemployment and providing job opportunities.

4. Total Credit Hours for Completing the Program:
193

5. Professional Occupations/Jobs:
- IT Software Developers and Designers Jobs (7th rank).   - IT Project Management Jobs (7th rank).   - Support Technicians Jobs (7th rank).
