Program Learning Outcomes(PLO's)

Knowledge and Understanding	
K1	Define knowledge of computing and mathematics appropriate to the discipline.
K2	Define computer science theory and software development fundamentals to produce computing-based solutions.
Skills	
S1	Design, implement and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline
S2	Use current techniques, skills, and tools necessary for computing practice
S3	Analyze a complex computing problem and apply principles of computing and other relevant disciplines to identify solutions
Values	
V1	Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline
V2	Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles
