Meeting System

[Visit Service](#)

It is a service that enables students and faculty members to obtain researches and studies from scientific magazines. It also enables them to search in periodicals and scientific letters in Arabic and English. ...

Library

[Visit Service](#)

Technical Support

It is one of the most advanced system in applying maintenance and support application. It aims to facilitate and follow-up the application procedures. Maintenance applications were sorted into students, faculty members and staff applications. ...

[Visit Service](#)

Single Sign-On

This service was created in order to unify the mechanism of requesting a single login name to all systems and services provided by the deanship. In addition, it gives the beneficiary the opportunity to update his basic information that is not available in the Staff Affairs System like their name in English, or their variable information such as address and mobile number. ...

[Visit Service](#)

SMS is one of the most effective and fast communication tools between university staff. Therefore, the deanship has developed a system that provide each university employee with this service. It helps them to send SMS to specified groups created by them using University database. The
